MEMORANDUM

SUBJECT: Removal Assessment at Product Design and Fabrication,  
Cedar Rapids, Iowa

FROM: Lyndell Harrington  
Acting Chief, RCRA Branch

TO: Robert Morby  
Chief, SPFD Branch

The purpose of the memo is to request that a removal assessment be performed at the Product Design and Fabrication facility located at 6738 6th Street SW, Cedar Rapids, Iowa. A removal assessment is being requested due to the amount of waste materials found at the facility and the company's financial condition.

In March 1988, the facility submitted a Notification of Hazardous Waste Activity to EPA identifying itself as a generator of hazardous wastes F003 and F005. In March 1992, EPA performed a RCRA Compliance Evaluation Inspection at the facility and found several RCRA violations. During an October 4, 1993 inspection at the facility, EPA discovered that the facility is under Chapter 7 bankruptcy. Also a large quantity of paint wastes was in storage at the time of the inspection. The trustee who is in charge of this case is Mr. Dennis Currell with Tom Riley Law Firm. Mr. Currell can be reached at (319) 390-4174.

A copy of the facility file is attached for your information. A copy of the inspection report of the recent inspection will be provided to you as it becomes available. Jim Stevens with CNSL has been informed of the issue. If you have any questions regarding the facility, please contact Tran Tran of my staff. Tran can be reached at extension 7884.

Thank you for your assistance in this matter.
